Same great advantages as the DWD "SL" series:

- Corrosion resistant 17-4PH stainless steel
- Bolt-in mount or press-fit styles available
- Superior air flow via access holes
- Low cost
- Stainless steel screws available upon request
- Complete family of components
- Guide sleeve for axial alignment
- Sleeve reduces wear on cross pin
- Positive stop to reduce spring fatigue
- High pressure spring for tighter seal and resistance to vacuum
- Spring rated for high temperature environments such as compression & rotational molds
- Sized for new or replacement installations
